

POSITION OPENING

Managing EMS Officer

Bennington Rescue is in search of a Managing EMS Officer for our organization located in the Green Mountain Region of Vermont. Bennington Rescue is an award winning EMS agency with an engaged and energetic crew of EMS professionals serving Southwestern Vermont and the surrounding region. Please see our website at www.benningtonrescue.org for more information about our organization. The region has access to four-season outdoor activities, a vibrant arts community, regional museums, historic sites, numerous community events, and more. Interested parties are encouraged to visit www.bennington.com to learn more about the region.

The Managing EMS Officer operates in an upper management capacity. This position is developed and based off of the National EMS Management Association Officer Competencies for a Managing EMS Officer. The ideal candidate for this position will support exceptional clinical operations by independently planning, implementing, controlling, improving and evaluating all aspects in their span of control as an individual and part of the management team. An ideal candidate has strong, demonstrable experience in EMS operations and education. Depending on operational needs, the management team of Bennington Rescue operates in a clinical capacity in the field.
